

## Awards And Financial Assistance For Graduate Students

The University of Calgary is very proud of its Graduate Student Awards program. In addition to recognizing academic achievement, scholarships are important in helping to bridge the gap between the rising cost of attending university and limited student income. Attracting top national and international students to the University of Calgary continues to be a very high priority.

We are extremely pleased that our donors share our commitment to graduate student awards, and we greatly appreciate the financial support offered by all of our valued donors.

Full-time students registered in a graduate degree program at the University of Calgary are eligible for awards and financial assistance.

Additional information is available from your department. Scholarship applications are on the web at [http://www.grad.ucalgary.ca/fac/site\\_schol.htm](http://www.grad.ucalgary.ca/fac/site_schol.htm).

Because this Awards List is published a considerable time before the opening of the session, the University reserves the right to make whatever changes circumstances may require, including cancellation or addition of particular awards.

### I. University Assistantships

**Please refer to the *Graduate Student Appointments Schedule and Funding Information* for more complete information about the appointments mentioned in this section.** The *Schedule* is available at [http://www.grad.ucalgary.ca/policy/policies\\_and\\_procedures.htm](http://www.grad.ucalgary.ca/policy/policies_and_procedures.htm).

Each year teaching units have available varying numbers of graduate assistantships to be awarded on the basis of merit. Individuals interested in such appointments should contact the appropriate program

## GRADUATE AWARDS

---

### V. Graduate Students' Association Bursaries

The Graduate Students' Association makes

Apply using forms available on the web at [http://www.ucalgary.ca/UofC/research/html/res\\_fund/int\\_grants.html](http://www.ucalgary.ca/UofC/research/html/res_fund/int_grants.html); from the University Research Services Office, Room 602, Earth Sciences Building, University of Calgary, Calgary, Alberta T2N 1N4; or, from the program in which the student is registered.

Deadlines: Applications are accepted twice a year - 1 April and 1 October.

## XI. Awards in the Faculty of Graduate Studies

The Faculty of Graduate Studies Scholarship Committee awards the scholarships and fellowships listed here and unless otherwise stated in the terms of reference, application for these awards is made on a single form. Copies of the application form are available from the graduate programs and from the web at [http://www.grad.ucalgary.ca/fac/site\\_schol.htm](http://www.grad.ucalgary.ca/fac/site_schol.htm).

Scholarships and fellowships are awarded on the basis of academic standing and demonstrated potential for advanced study and research. Normally, only Master's students in the first two years of program and doctoral students in the first four years of program are eligible to hold scholarships. If, in the opinion of the Graduate Scholarship Committee, a suitable candidate cannot be found, it reserves the right not to award any one or any number of scholarship(s) in any year. Unless otherwise stated, awards are for one year only. The value and terms of the awards are subject to change without notice.

Written requests, endorsed by the supervisor and graduate co-ordinator, for off-campus tenure of awards should be submitted to the Dean of Graduate Studies.

Notification of award is sent to successful candidates as soon as possible after the adjudication. All award winners are asked to accept or reject the offer in writing as soon as possible and no later than one month from the date on the letter of offer.

Should it become known that a student is unqualified for any reason, the University reserves the right to terminate the award(s) and **funds already paid out must be returned.**

The following payment schedule applies to all awards in the Faculty of Graduate Studies, unless the terms of reference of the award specifies otherwise.

If a student has a successful final oral examination during the tenure of a scholarship, the award will be terminated at the end of the month following the month in which the final oral examination was held, or at the date of the termination of the award, whichever comes first.

University of Calgary scholarship holders, i.e., students who have been awarded a scholarship by the Faculty of Graduate Studies Scholarship Committee (this does not include holders of either a GA or GRS), normally may not hold more than one major

award at the same time. A major award is normally considered to be \$14,000 over twelve months or \$4,600 over four months. Students who have been offered both a major award by the Graduate Scholarship Committee and a major external award must normally forfeit one of the awards. In such a case, a student may include the offer of the forfeited award on a curriculum vitae.

Any scholarship recipient can normally be awarded Graduate Assistantships as long as the terms of reference of the scholarship do not prohibit such combinations. Students are advised to read the terms of scholarships
